

**SAMOS® PRO COMPACT**

# COMPACT STARTER-SET

Your entry to the world of functional safety

samos® PRO is the ultimate compact, modular and programmable safety controller for machine and plant engineering. Benefit from the intuitive, license-free safety software and parameterize your safety functions with ease using function blocks certified by TÜV. Just 45 mm wide, the samos® PRO safety controller is a impressive compact powerhouse offering customized performance for your application with the expansion modules. There are three Ethernet field bus protocols on-board for integrating the control unit into the automation network:

**samos® PRO COMPACT safety controller with integrated interfaces for Profinet, Modbus TCP and Ethernet IP, plus the samos® PLAN 6 programming software.**

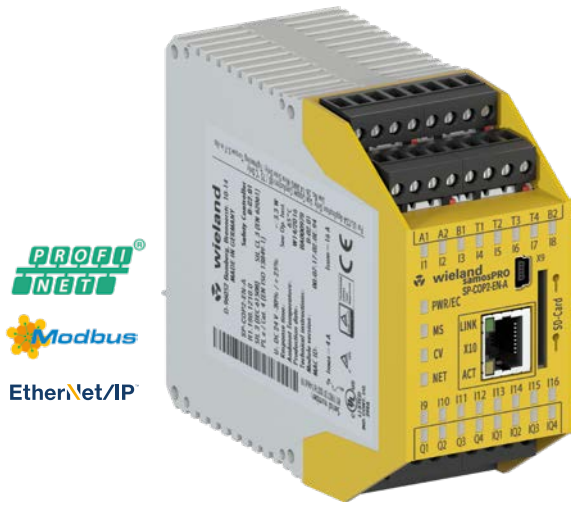

## THE KIT INCLUDES EVERYTHING YOU NEED TO GET STARTED:

- samos® PRO COMPACT Modul SP-COP2-ENI
- Ethernet connection cable
- USB connection cable
- Memory card
- samos® PLAN 6 programming software
- Introduction tutorial

# POWERFUL SAFETY SET

for safe performance from the very first minute

**LIMITED TIME OFFER -  
SPECIAL PRICE BUNDLE!**

Item no. R1.190.1100.0, limit one per customer

## SAMOS® PRO COMPACT MODULE (SP-COP2-ENI)

- 16 safe inputs, 4 safe outputs, 4 configurable safe inputs/outputs
- Up to 12 I/O expansion modules
- 74 TÜV-certified function blocks in the software libraries
- Up to 300 function blocks can be realized in one project
- 3 Ethernet field bus protocols on-board

## SAMOS® PLAN 6 PROGRAMMING SOFTWARE

- Automatic hardware configuration
- Intuitive programming and operation
- Simulation function
- Logic analyzer
- Forcing function
- One-click report

**QUICK START  
SAFE FROM THE GO**

### QUICK START MANUAL

Set up your **samos® PRO COMPACT** in no time at all.
